PROFILE

- Second-year B.Tech Computer Science and Engineering (Artificial Intelligence & Machine Learning) student at Lovely Professional University with a strong interest in AI/ML and software development. Focused on strengthening programming, problem-solving and development skills through practical projects and collaborative work, with a long-term goal of becoming a Machine Learning Engineer.

SKILLS

- Languages: Python, C, C++
- Technologies: HTML, CSS, JavaScript
- Databases/Tools: MySQL, PostgreSQL, Git, GitHub, Figma
- Soft Skills: Problem Solving, Team Collaboration, Time Management, Adaptability

PROJECTS

CureConnect | AI-Driven Healthcare Navigation Platform

- Designed an AI-driven healthcare navigation concept to bridge the gap between initial symptom awareness and medical care.
- Provides early disease risk assessment, triage guidance and first-aid information before users reach a healthcare provider.
- Focused on a user-friendly experience for accessible healthcare navigation without presenting the system as a professional medical diagnosis tool.

Self-Watering Planter | Smart Agro-Climatic Irrigation System

- Developed an automated plant-care concept designed to optimize water usage and maintain suitable soil moisture.
- Uses sub-irrigation or sensor-driven delivery to provide moisture directly to the root zone based on environmental needs.
- Focused on smart agriculture, automation and sustainable water management.

Women Safety System | Real-Time Safety & Threat Analytics

- Developed a technology-driven safety solution concept focused on real-time protection and emergency alert triggering.
- Explores threat analytics to enhance personal safety in public or isolated environments.
- Focused on emergency response, analytics and practical safety-oriented technology.

EXPERIENCE

- Community Development Project — WNS
- Worked on a community development initiative to teach 30 students about cybersecurity awareness.
- Explained important cybersecurity concepts in an accessible manner and promoted safer digital habits.
- Strengthened communication, teamwork and teaching skills through direct community engagement.

CERTIFICATIONS

- C++
- Cyber Security
- Computer Programming
- CodeXtreme
- Time Management — Academic Achievement

ACHIEVEMENTS

- Participated in Resurgence 2026, a hackathon conducted by Cognitia.
- Ranked in the Top 30 in CodeXtreme, conducted by NeoColab.

EDUCATION

- Lovely Professional University — Phagwara, Punjab
- Bachelor of Technology — Computer Science and Engineering (Artificial Intelligence & Machine Learning) | 2nd Year | CGPA: 9.44 Modern Public School
